

|PUSH|WIRELESS

You are invited to the

Push Wireless Bay of Plenty Launch

Come and learn about New Zealand's first Digital Tier 3 Two Way Radio network, Push Wireless and how this network can provide Occupational Health and Safety to customers by integrating instant voice, GPS tracking and other management systems on a single platform to simplify your team operations.

"... It's not just about voice..."

Live Demonstrations of Digital Voice, GPS Tracking, Man Down and Lone Worker Alerts, Unified Voice connecting cellular devices into your two way radio network and much, much more.

23rd November 2016 / Coastguard Sulphur Point Tauranga / RSVP to support@mobilesystems.co.nz
