

# SWATCOM SC34 - ENHANCING COMMUNICATIONS IN HIGH-NOISE

SWATCOM SC34 is a passive heavy duty noise-cancelling headset, based on the A-KABEL AK5850HS, designed for use in the most demanding environments, helping to improve communications in high noise.

Manufactured in Norway in close collaboration with end-users, using the latest technology to ensure excellent hearing protection and communication are combined with high durability, to meet the demands of extreme environments.

SWATCOM SC34

## FEATURES

- PTT on the ear shell.
- Rugged build quality.
- Helmet & Headband versions available.
- High passive noise attenuation: SNR 30 dB.
- All metal parts are stainless steel for increased durability.
- Quick positioning noise cancelling boom microphone for ease of use.
- Padded headband with adjustable pressure control and soft ear cushions give high comfort.
- Dynamic noise-cancelling boom microphone gives a high perception of speech by filtering out background noise.

A large PTT is located on the rear of the mic-cup allowing easy push to talk communication.
